State of North Carolina.
ANSON COUNTY.
Superior Court of Equity, Spring Term, 1887.
Thomas Hubbard and wife Nancy, vs. Moses Moore and wife Elizabeth and others.

PETITION FOR SALE OF REAL ESTATE.
IT appearing to the satisfaction of the Court, that Lewis Melton and wife Rebecca, Harmon Adams and wife Rachel, Lewis Graves and wife Miriam, Philip May and wife Susanna, Jonathan May and wife Catherine, Willie Mangum, and Thomas Lewis, defendants in the above case, reside beyond the limits of this State, It is therefore Ordered, That publication be made in the Fayetteville Observer, for six successive weeks, in order that the defendants may appear before the Hon'ble the Judge of the Court of Equity, for the County of Anson, at the Court House in Wadesboro, on the 24th Monday in September next, then and there to show cause, if any they can, why the prayer of the Petitioners should not be granted, otherwise the petition will be taken pro confesso as to them, and heard ex parte.

Witness, William E. Troy, Clerk and Master of said Court of Equity, at Office, in Wadesboro, the 24th Monday of March, A. D. 1887, and in the 62d year of American Independence. WM. E. TROY, C. M. E. (52 6w.)

Valuable Lands For Sale.
THE Subscriber, wishing to remove to the West, offers his LANDS for sale, lying on the East side of Cape Fear River, eight miles from Fayetteville, viz:

850 acres, of which there is about 80 or 100 acres cleared and under good fence, with a tolerable Dwelling House.
750 do., joining the above, of which there is first rate Swamp Land; it is well timbered with white oak, red oak and hickory, and is an excellent range for stock of every kind. Also,
220 acres of Piney Land, joining the other, and on the Raleigh and Tarboro' Stage Road, whereon the Dwelling House stands; with a good Well of Water, and quite healthy.

The above Lands will be sold low for cash, or young negroes. HECTOR McKAY. August 15, 1887. 55-1f.

State of North Carolina.
ROBESON COUNTY.
Superior Court of Law, Spring Term, 1887.
Alexander Moore and Eliza his wife, vs. James Storm, Administrator with the Will annexed of Willis Pope, deceased, and Samuel Jenkins, one of the Executors of the last Will and Testament of Jacob Barnes, deceased.

PETITION FOR SALE OF REAL ESTATE.
IT appearing to the satisfaction of the Court, that Samuel Jenkins, one of the defendants in this case, resides beyond the limits of this State, It is therefore Ordered, That publication be made in the Fayetteville Observer, for six weeks, that the said Samuel Jenkins be and appear before the Judge of our said Court, to be held for the County of Robeson, at the Court House in Lumberton, on the first Monday after the fourth in September next, and plead, answer or demur, or the Petition will be heard ex parte, and judgment entered pro confesso as to him.

Witness, Richard C. Bunting, Clerk of said Court, at office, the 4th Monday of March, in the 61st year of American Independence, A. D. 1887. RICH. C. BUNTING, C. S. C. (55 6w.)—Pr. ad. \$2 62.

NOTICE.
Persons whose Notes and Accounts to the Editor are requested to call upon G. W. Yates, and pay the same without delay, and from this date, and not comply, are reminded, have no excuse by my being absent, expected they will make their promise.

HENRY P. PECK. (55-6w.) Aug. 18, 1887. 55-4f.

Notice to Land Buyers.
THE Subscriber intending to remove to the West, offers for sale the following LANDS, lying on Cape Fear River, in the County of Cumberland, thirty miles above Fayetteville, viz:

400 acres, two miles above Fox's Island, 320 do one mile above McNeill's Ferry, 230 do two do above Arensborough, 4000 do Piney Land, including his Dwelling, on which is a Saw and Grist Mill, and within four miles of Cape Fear River.

All or any part of the above Land will be sold to suit purchasers, and the payment made easy. The Land will be shown at any time by the Subscriber. DUSHEE SHAW. 52-3m. July 27, 1887.

For Sale.
100 KEGS White Lead ground in oil; part pure, part common. 6 quarter casks London Particular Madeira Wine, imported direct, by J. HUSKE & SON. August 15, 1887. 54-1f.

EVANDER MCINTOSH, Sh'ff. August 9, 1887. 54-1f.

State of North Carolina.
Cumberland Superior Court of Law, Spring Term, 1887.
Philip Carroll vs. Algea Carroll.

PETITION FOR DIVORCE.
IT appearing to the satisfaction of the Court, that an alias subpoena in this case has been regularly issued and returned by the Sheriff of the County of Cumberland, and that the defendant, Algea Carroll, has failed to appear before the Court, and that publication be made in the Fayetteville Observer, for six weeks, in order that the defendant may appear before the Court, to be held for the County of Cumberland, on the 7th Monday after the 4th in September next, then and there to answer, plead or demur to said Petition, or it will be taken pro confesso and heard ex parte.

Witness, Henry W. Ayer, Clerk of said Court, at office, this 25th day of July, A. D. 1887. (51-3m) HENRY W. AYER.

\$25 Reward.
RANAWAY from the Subscriber, living in Abbeville District, S. C. in the month of May, a negro man named SIMON, about 26 years of age, rather dark, with copper colored hair, formerly the property of Jonathan Jessop, of Fayetteville, N. C. He has been seen lately in the neighborhood of Bryant Wright's, in Cumberland County, and will not be found in that neighborhood, or about Fayetteville. The above reward will be paid for his delivery to Neill Johnson, of Fayetteville, or to the Subscriber.

THOS. L. WHITELOCK. Abbeville District, S. C., July 25, 1887. 52-1f.

Comprehensive Commentary.
THE 3d Vol. of this Work is just received, and is ready for delivery at the Store of HOOPER & MAC LAURIN. Fayetteville, August 22, 1887. 55-5w.

Blanks for sale at this Office.

NOTICE.
THE Subscribers having obtained Letters of Administration on the Estate of Duncan McRae, Esq., at the last County Court of Montgomery, held on the first Monday of July inst., do hereby notify all persons having claims against said estate to present them for payment, properly authenticated, within the time prescribed by law, or this notice will be in bar of a recovery. Those indebted to the Estate are requested to make immediate payment, or they will be proceeded against according to law.

ELIZA McRAE, Adm'ra. DANIEL McRAE, and J. Adm'rs. ALEX' R. LITTLE, } 53 5w. July 28, 1887.

Correspondence of the Charleston Courier.
SULPHUR SPRING, (N. C.) Aug. 17.
Frequent and rapid change of scene, has for some time denied the leisure necessary to the continuation of my correspondence, and my pen must take quite a retrospective stride to bring up the arrears of my narration. My date makes you aware that I have bidden adieu to the luxurious and healthful bath of the Warm Springs, but I recur to them and the adjacent scenery to record a few additional matters, supply deficiencies, and perhaps correct some errors. The Bathing House is a wooden building, about 20 by 46 feet, erected by Mr. Saunders, one of our Charleston mechanics, on a portion of the bed of the French Broad, (near the left bank), which remains dry, except when the river is swollen by heavy rains or the melting of mountain snows. An elevated brick foundation, or rather basement story, forms the basis of the bath, which is divided into separate apartments for the several sexes, each spacious enough for swimming. It is supplied by springs, bubbling from its bosom, and the water is so beautifully pellucid that the bubbles at its bottom are distinctly visible. The temperature of the boils is about 105 degrees, by Fahrenheit, reduced to 98 and 96 in the ladies' and gentlemen's baths respectively, in consequence of their depth of water, and the areas they severally cover. By means of a vent, the water is usually kept at a depth, varying from four to five feet, and undergoes a constant process of purification; and a lower vent drains it nightly to the surface, or very nearly so. I have been furnished with the following analysis obtained from one gallon of the water: viz: 1st, Sulphate of Soda 7 1/2 grains; Murate of Soda 4 1/2 grains; 3d, Sulphate of Lime 8 1/2 grains; 4th, Carbonic Acid Gas 6 cubic inches; 5th, Sulphuric acid, a small portion; 6th, other Gases in small quantities. In this analysis no iron was used. Of the medicinal virtues of the bath, and its special efficacy in rheumatism, I have already sufficiently written—and I have but to add, that its cleanliness, purity, buoyancy and temperature, constitute it one of the most luxurious baths in the South, while the pleasant view, which lies near, and the grand river and mountain scenery which surround it, together with the appropriate sports of the line, the gun, and the hound, furnish other attractions of no common order. I must not, however, omit to make honorable mention of Aaron, the *caput balneum*, or high priest of the bath, whose civil and attentive ministry justly entitles him to the voluntary Mack-mail, or tribute money of the departing bather. The only tax for the use of the bath and its appliances—and render it not the gentle thing to forget to remember Aaron.

The Hotel at the Warm Springs is a neat two story brick edifice, 40 by 250 feet front on the French Broad, and 100 feet deep, and is divided into two main ranges of chambers and stairs, separated by a long passage-way. As I stated in a previous letter, the Hotel, with its cluster of cabins, is insufficient for the accommodation of visitors who continued to overflow, during the whole period of my sojourn there. The improvement contemplated by Mr. Patton, and to be executed by him, will consist in the construction of an additional wing to the Hotel, and a handsome piazza, thrown out in front. Should the great Hall Road ever be constructed, it will pass directly by the Warm Springs, and increase the convenience of visitors, and enhance the value of the establishment to an incalculable extent. The Warm Springs are not only frequented by the invalid and fashionable in the summer, but are a stopping place for the Western traders and drovers, during the residue of the year. From the first of October to the first of May, it is computed that 10,000 horses, 70,000 hogs, 4,000 kine, and 3,000 sheep, passed the toll-gate on the French Broad, on their way to the Southern and South Western States. My former statement of the income of the road along the French Broad was incorrect—the tolls yield a net annual profit of 14 or 15 per cent. on a capital of \$30,000—and an increased profit may be confidently expected. Although the Stockholders receive such a handsome annual dividend, their stock is mid never to sell above par. The soil is exceedingly fertile, well adapted to pasture, and abundant in the production of grain and hay—even many of its mountains are encircled with a thick vegetable mould, clad from bottom to top with a noble forest growth, and enriched with the frequent corn-field and luxuriant meadow. Its agricultural resources are not yet fully developed, its population is sparse, in comparison with its territorial extent, and its mineral resources, supposed to be great, are as yet but in prospect. The harvest is indeed great, and the labourers few, but so abundant are the means of living, that the ordinary price of labor on a farm is 37 1/2 cents per day, with meat and drink, in addition. The mass of the population, however, are engaged in the facilities of education, and in such a manner, both hospitable and kindly at heart, although rough in the exterior, and stand well generally in respect of morals and temperance. Nearly one-half of Buncombe, it is said, once belonged to South Carolina, but was lost to her by mistaken instructions, given to the Commissioners, who ran the boundary line with North Carolina, some twenty or thirty years since. Both socially and commercially all the affinities and sympathies of Buncombe are with South Carolina, and our larger spirit might well afford to cede back to our original right. There are not a few in our State who would regard Buncombe as an inviolable acquisition, in another point of view. Her bold and hardy sons are as true to the Union as the needle to the pole—they sympathized in every movement and pulsation with our own gallant mountaineers—and during the political storm in our State, which shook the all-glorious of those on the Star Spangled Banner, and threatened a like unhappy influence in other States, there was but a solitary professed Nullifier in all Buncombe.

Before leaving the Warm Springs, I made highly interesting excursions to the Point Rock and Chimney, and across Bryant's and Spring Mountains, to Fout's Cave in Tennessee, of which objects of curiosity, according to promise, I will attempt a faint outline. The Point Rock is situated between six and seven miles from the Warm Springs, and seems to have been rent in twain, to enable Paint Creek to pour its tributary water into the French Broad, and divide North Carolina from Tennessee, and the latter from the equal sovereignty. The rock overhangs the road on the margin of the river, and the portion of it on the North Carolina side, which more particularly appropriates the name of Point Rock, does not lift its craggy summit more than about 100 feet, in elevation and general character, an object of very remarkable interest—it is not difficult of ascent, and from a rocky platform on its top, you may enjoy a fine mountain and river prospect, and peep down the overhanging precipice at the road below. The name and the celebrity of this point are derived from some of the most ancient of a red or perhaps rose color, which, after the lapse of unnumbered centuries, yet stain its surface, and which, as to both origin and nature, have baffled every effort of antiquarian and Indian research. The oldest Indians, of present days, speak of it as a mystery, which their fathers could not solve, and which they could not explain to their children. Some suppose it to be the handiwork of nature to raise the wonder and puzzle the sagacity of man, and seek to explain it by the drippings of iron ore, in watery solution, through the crevices of broken rock—the majority, however, believe it to be the artificial smearing of some Indian pigment of great tenacity, the date and purpose of which are lost in insupportable antiquity. The only remnant of paint now left, occupies a parallelogram of a few square feet, on the right side of an angular indentation of the rock, about 40 feet above the road—on the other side of the angle, an active young engineer, engaged in the great road survey, has inscribed initials and the date of his achievement. The painted section resembles a piece of oil floor cloth, with zig zag or serpentine lines of a red color. The figure of a man with a gun is said to have been once visible on another part of the rock, but to have been smoked out by fire kindled in the cavernous hollows below it. Around the Point Rock turns off a road, running partly up the valley of the French Broad, and partly across the Point mountain, and forming the mail route to Greenville, in Tennessee. On the road to the Point Rock, about five miles from the Warm Springs, lives a deaf and dumb gentleman, by the name of Nelson, possessing very considerable intelligence, and who converses freely with his friends, and by means of slate and pencil, or pen, ink and paper. He is a married man—and is said to be extravagantly fond of dancing, and able to keep time to the music of the dance with wonderful precision.

The Chimneys are reached, between a quarter and a half mile further down the river than the Point Rock, and never did more stupendous and sublime to form a more imposing scene of wildness, grandeur and sublimity. The Hudson, with its rocky palisades, its smooth current, and cultivated banks, its floating palaces and frequent craft, its adjacent villages, towns, farm-houses and country seats, and above all its hallowing reminiscences of the great American revolution, and its interest, but it must yield the palm to the French Broad, at the Chimneys, in grandeur and sublimity, in all those attributes and features, which fill the soul with awe and reverence, and compel man to acknowledge the sovereignty of his Creator. Rising directly from the river, and a half mile further down, the Chimneys are a bold and rugged mountain, and the perpendicular height of 300 feet, impressing the way-side spectator with an overwhelming sense of his own littleness in the scale of creation. On the opposite side, mountains of equal or superior elevation lift up in fine contrast, their forbidding peaks, and give the aspect and reality of the reality of waters' occupies the walled interval. The rocks composing the Chimneys lie in strata, like Mason's work, and they are truly piled on each other and cemented together by the great Arch-mason of nature. The river originally washed the base of the rock for a considerable distance, and the river bed is now a level, built up the road where the water once flowed, fifteen feet in depth, accomplishing the work by hurling huge fragments of rock down the precipice into the bed of the river. In achieving this enterprise, otherwise so praiseworthy, the greatest natural curiosity and wonder of the scene was sacrificed to the rocky fragment which gave to the entire rock its present name, rising to the height of 100 feet, in the shape of a stack of chimneys, and with a funnel capable of being ascended to a considerable distance, was demolished, and its broken materials used for the construction of the road. On the hither side of the rock, at a narrow point, the river bed is a level, and the river flows in a straight line, and the water once flowed, fifteen feet in depth, accomplishing the work by hurling huge fragments of rock down the precipice into the bed of the river. In achieving this enterprise, otherwise so praiseworthy, the greatest natural curiosity and wonder of the scene was sacrificed to the rocky fragment which gave to the entire rock its present name, rising to the height of 100 feet, in the shape of a stack of chimneys, and with a funnel capable of being ascended to a considerable distance, was demolished, and its broken materials used for the construction of the road. NEW ORLEANS. —
Yellow Fever.—We are sorry
that this disease has increased so
announced its appearance in the
cases that have lately occurred have
violent and unusually fatal. —

Gov. Dudley.—Our worthy Governor arrived in Wilmington on the 27th ult. and after a visit of two days, left for Raleigh, on the 30th.—*Wilmington Ad.*

FROM THE NEW YORK MIRROR.
The Hunters of Kentucky.—A correspondent asks, "Who wrote the song called 'Hunters of Kentucky,' so popular at the West some years ago?"
Answer.—Samuel Woodworth.

The Maine Senators.—The Portlandvertiser says there is good ground for saying that the Van Buren Senators from this State are not of the *loco* force, but of the Rives and Talmadge school of politics.

Communication.
FOR THE OBSERVER.
ANSON COUNTY, AUGUST, 1837.
Mr. Hale: You will confer a favor on a subscriber, and perhaps render an important service to your numerous friends in Anson, making the fact known, that a Physician good professional acquisitions (one that regular bred would meet with encouragement,) would do well to locate himself in Salisbury, or any of that portion of the county bordering on Pee Dee, from the mouth of Rocky River to the Grassy Islands. His portion of the County, which is very populous, is destitute of Medical aid, and the dependence of the citizens is mostly on Dr. Parke, of Wadesborough, whose practice so extensive, that frequently his valuable services cannot be obtained until the sick are past the power of medicine. Should his communication meet the eye of some worthy M. D., who wants business, let him make the trial, and the sooner the better, as this is the commencement of the sickly season.
FEVER AND AGUE.

DIED.
At his residence on the 5th inst. Rev. JAMES DOUGLASS, Pastor of the Presbyterian Church in Fayetteville.
At Starkville, Mississippi, DAVID S. MOODY, physician, sometime a resident in this town in the office of Dr. Robinson.
At Alfordville, Robeson County, on the 27th ult., after a short illness, NANCY JANE, eldest daughter of Ludwick B. Alford, of Marion District, S. C., in the 17th year of her age.

SOUTHERN TONIC.
COSTER & COX.
AGUE AND FEVER.
And every symptom of general Debility, speedily and permanently cured by
COSTER & COX'S ORIGINAL SOUTHERN TONIC.

COSTER & COX, the inventors of this celebrated medicine, from a long residence in the South, and from the nature of their vocation, have been brought immediately in contact with the Ague and Fever in its most obstinate forms, and have frequently been compelled to witness the entire want of success in the practice of the most skillful Physicians. The usual and popular mode of treating this disease has been, first to evacuate the stomach and bowels, and then resort to the use of Tonics—of which class of Medicines a very great variety have been recommended to the Public—all of which have had their advocates, and that which has been by far the most popular, has been Peruvian Bark and its preparations, particularly that of Quinine. There are insurmountable objections to the administration of Quinine, as to most individuals, (when carried to a salutary point,) it produces a roaring in the ears, nausea, and a headache, very similar to a bilious headache, and when it effects a cure it is seldom permanent. It was the hope of avoiding this state of things that induced us to try the "Southern Tonic," and we are happy to say that its success has surprised even us. As there is no Arsenic, Mercury, or any thing in the least hurtful to the human constitution in it, there can be no objection to the administration of the Southern Tonic to the most tender infant; indeed it will be found the most delicate and effective medicine known in those cases of Disorganized Stomach and Bowels, and of general debility which so frequently present themselves in children.

We subjoin the opinions of a few individuals.
From Col. John B. Hogan, Collector of the Port of Mobile—formerly Senior from the counties of Mobile, Baldwin, &c. Acting Adj. and Inspector General of the Army in the recent Creek Campaign, &c.

Mobile, August 18, 1835.
GENTLEMEN—During the late Creek Campaign, I was attacked violently with Bilious Intermittent Fever, which for several days confined me to my quarters at Tallahassee. Your "Southern Tonic" was recommended to me, and my friend, Dr. Blunney, actually rode from Tallahassee to Montgomery and back in one day to procure me a bottle, which entirely relieved me, and enabled me, before I had taken half the quantity, to proceed on and join the army on Hataichubba. Since my return home my son was attacked, and I sent into the city for your Tonic, and regretted to learn there was none for sale in Mobile. Can you send some to this place, so that our citizens may enjoy the benefits of the best medicine of the sort I have ever tried? Your attention to this request will confer a favour on the afflicted, and oblige one who has already experienced its beneficial effects.

Your obedient servant,
JOHN B. HOGAN.

Montgomery, June 30, 1836.
Messrs. Coster & Cox—GENTLEMEN: I have used your Southern Tonic with unparalleled success. I cured four cases of Ague and Fever permanently with one bottle of this invaluable medicine.

JESSE H. MOSLEY.

From our representative to the Legislature, Col. Jno. A. Campbell.

GENTLEMEN—No medicine stands so high in my estimation as your Southern Tonic, for the cure of Ague and Fever. I used it at first by the advice of my family physician, with success, and its effects upon more recent cases have been equally gratifying. Yours, truly,
JNO. CAMPBELL.

NEW WHOLESALE STORE.

350 PACKAGES.
In addition to my former Stock and business, I am now receiving 350 Packages of Goods, all of which is entirely new, and has been recently selected by myself out of the late Package Sales in New York, with the utmost care, taste and economy, and which I am determined to sell on as good terms as any Stock ever before offered in this market, at wholesale entirely for Cash or on time for approved notes. (liberal discounts will be made for cash payments.) My assortment is complete, consisting of English, French, India and American Spring and Summer Fancy and Staple

DRY GOODS,
Groceries, Hardware, Cutlery, Paints, Dye Stuffs, Drugs, Medicines, &c. &c.
I now invite customers and traders generally to call and examine my stock; I can offer them such inducements as will ensure patronage. Orders will be punctually attended to by
C. J. ORRILL.
Yellow Brick Buildings, Hay street.
